Title: Blackthorn-A Biography

Author: Hands of Virtue  
-----

As both the dearest friend and the fiercest opponent of Lord British, Lord Blackthorn is a somewhat controversial figure. Although he would never do anything to directly harm the King, Blackthorn is a known agitator. He has gained popularity by defending the concepts such as individuality and freedom of belief through the creation of his own virtue called CHAOS. In this context, Chaos does not represent the destructive force it is usually associated to.

Blackthorn believes that Lord British's Virtues propose a frame too strict to properly uphold individuality. He was opposed to the founding of the Guards of Virtue, and countered his friend and liege by forming the protectors of the Virtue of Chaos, granting them the same privileges given to British's Virtue Guards. Lord Blackthorn has also sponsored a series of books on the other intelligent species of Britannia, and has proven himself to be an active defender of their rights. He resides in a small castle north of Britain.

Lord Blackthorn appears often in the realm. He was sighted during a

protest at the gates of  
Castle Britannia, and a  
couple of other times in  
the realms..

Of course his wrestling  
matches that against any  
professional here on our  
beloved Atlantic Shard of  
what was the gem of  
immortality. He became  
embroiled in the battles  
against the evil liches  
Lathiari and Kyrnia. They  
pushed him through a red  
mongate and stranded him  
in a foreign world. Soon  
he found his way back in  
time to join the struggle  
against the Followers of  
Armageddon.
